Welcome to TOUGHBOOK

TOUGHBOOK

A Better Life, A Better World

TOUGHBOOK

The rugged original, the market leader*

Panasonic TOUGHBOOK has never been just another player in the rugged computing market. It defined the market.

For 20 years and more, TOUGHBOOK has been redefining the possibilities of access to data and applications in the most challenging of environments. Creating new opportunities for mobile working. And helping to transform the productivity of businesses the world over.

*Rugged Notebook and Tablet according to VDC market research 2017

DIFFERENT IS IN OUR DNA

We believe in helping businesses across Europe to be better. To be able to do more. To be able to work in ways that were previously impossible. To be able to offer better service. To be more productive.

And to do that, we believe in being different. Different from other mobile technology manufacturers. More in tune with what users need. More specialised in matching their requirements to our technology.

Starting from the moment of conception, everything we do is about being better, more expert, more fit-for-purpose than anything else in the market.

Like the people who use our technology: **'Different is in our DNA'.**

THE NEXT MODEL IN OUR LINE UP? YOURS.

Every job requires a different task,
and every task has different needs.

We are a core manufacturer with our own factory facilities
in Asia, offering the biggest and best form factor lineup of all
rugged computer manufacturers. Our devices are the perfect
fit for all high-demanding industries.

ACCESS ALL INDUSTRIES

Our greatest success is measured in the quality of businesses we can count as customers. Many of the world's most successful, influential and groundbreaking organisations rely on us for their mobile solutions, and have done for many years.

Recognising and appreciating their loyalty, we're constantly motivated to learn and improve, continuously refining and enhancing our technology and services.

As a result, you'll find TOUGHBOOK hard at work across the global commercial landscape.

BY SPECIALISTS. FOR SPECIALISTS.

As the world's #1 patent for the past three decades*, Panasonic can call on the expertise of one of the most formidable R&D teams on the planet. Alongside them, our specialist engineers design and build every part of a TOUGHBOOK. So each form, feature and function is created specifically for purpose.

Since our earliest days, we've embodied an ethos of 'voice of the customer', listening to what you want before delivering truly breakthrough technology in many areas.

- TOUGHBOOK Smart Service real-time device performance and utilisation monitoring software

TOUGHBOOK-as-a-Service

- A unique, interest-free, tailored subscription model for TOUGHBOOK solutions means you can now access the latest rugged tech, services and software, without the large upfront costs.

FOR SEAMLESS REMOTE MANAGEMENT OF YOUR ANDROID DEVICES

Android. It's smart. And it's getting smarter. In fact, it's been the best-selling operating system for tablets since 2013.

You could say it's big business for businesses.

But not all Android is created equal. And that's why Panasonic has developed its cutting-edge COMplete Android Solutions and Security portfolio/suite - COMPASS.

Consisting of 5 elements: COMPASS Custom, COMPASS Air, COMPASS Manager, COMPASS for Work and COMPASS Security; it effectively increases workforce productivity and mobile device management efficiency, all while decreasing security risks. for businesses.

*Best-effort endeavour with 96% success

**Subject to commercial terms and restrictions

BIG

PERFORMANCE, SMALL FOOTPRINT

You might be forgiven for thinking that fully rugged, heavy-duty devices can only be harmful to the planet. In fact, the opposite is true.

- All TOUGHBOOK devices are either gold- or silver-rated by EPEAT for environmental performance.
- Low power consumption, exchangeable batteries and exceptionally long lifecycles mean a reduction in waste disposal.

THINK LONG-TERM. NOT SHORT-CHANGED.

When it comes to investing in tablets and mobile PCs for business, some people are tempted to choose non-specialist, 'consumer' devices. Unfortunately, a small price tag doesn't equal a better return on investment.

With a rugged device, like a Panasonic TOUGHBOOK, the initial outlay might be higher than you'd find with a non-specialist machine. But their world-renowned reliability and durability mean much longer lifecycles and significantly lower ongoing costs. So your TCO soon drops and your ROI heads skywards.
